License #750574

**LIFT STOP PLACEMENT ORDER PROHIBITING ADMISSIONS**  
**LIFT CONDITION ON LICENSE**

Dear Mr. Flores Jr.:

The department has determined that you have corrected the violation that resulted in the stop placement of admissions effective December 12, 2011. On August 22, 2012 you were verbally notified the department had reviewed your payment and the stop placement is lifted. I apologize for any inconvenience this delay in notification may have caused.

Further review of your file shows a stop placement and condition on your license resulting from an inspection in March 2009. These were reviewed with district staff. They verified that the licensor informed you in April of 2009 that the stop placement was being lifted and recommend that the condition be lifted as of this date. Your record at headquarters will be updated to reflect these actions.

If you have any questions, please call Bennetta Shoop, Field Manager at (253) 234-6033.

Sincerely,

Lori Melchiori, Ph.D.
